

# Ebrahim Raisi

*An Embodiment of  
Humility and Resistance*

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the Name of God

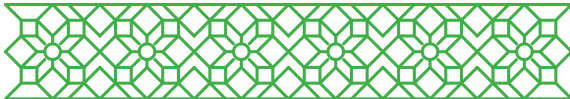

Seyyed Ebrahim Raisi's early life was marked by significant challenges. Losing his father at the tender age of five, Ebrahim had to work hard from a young age to support his family. His childhood was spent balancing school with work, selling goods on sidewalks, and working in a poultry farm. Perhaps these experiences of orphanhood, labor and poverty, deeply ingrained in him a profound sense of justice and empathy for the deprived and oppressed.

As the President of the Islamic Republic of Iran, Dr. Ebrahim Raisi's central focus on foreign policy included the support for Palestinians and combating Islamophobia. He has been an active opponent of the occupation by the Zionist apartheid regime, working tirelessly to support local resistance movements.

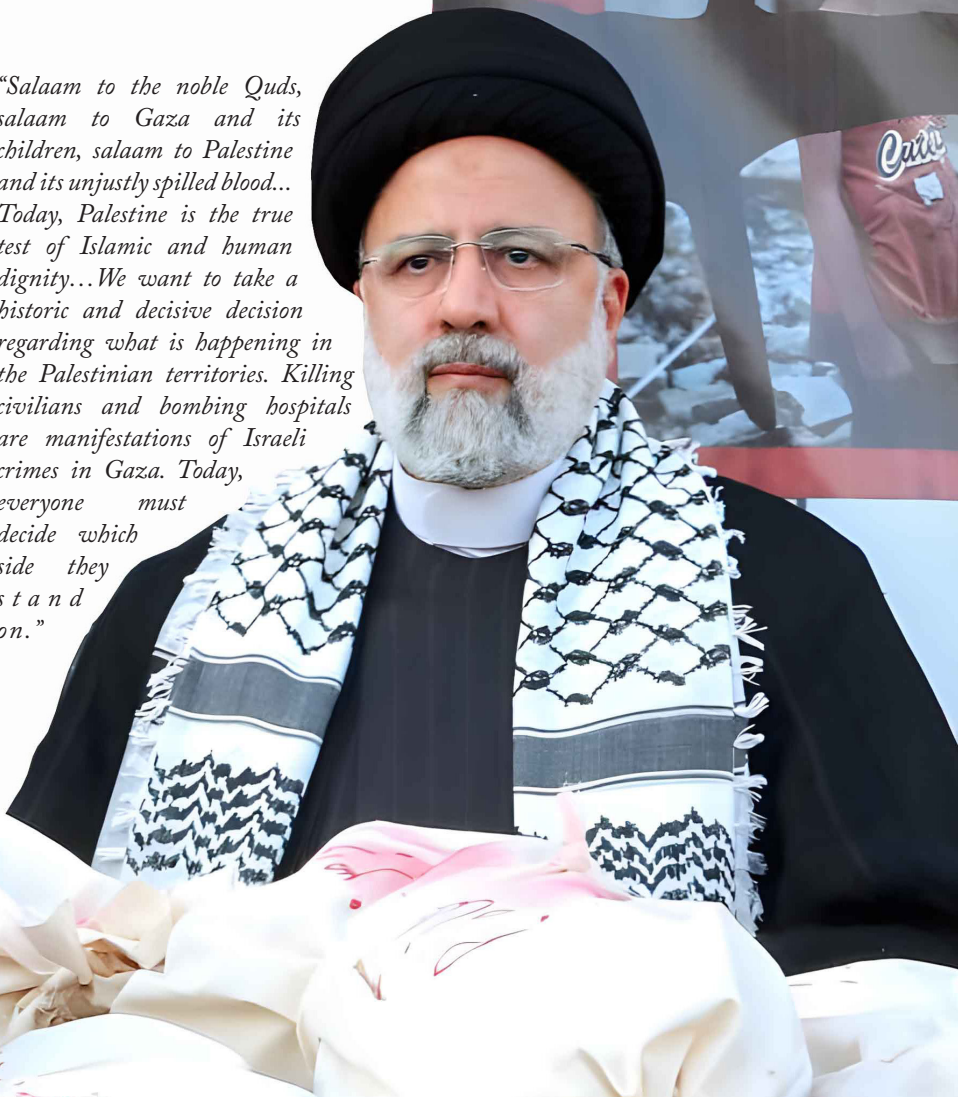

## Humanitarian and Diplomatic Efforts

During the ongoing genocide of Palestinians, Raisi has consistently voiced his support for the people of Gaza. He has engaged in direct communications with different leaders all across the globe, and actively organized and participated in summits for the Palestinian cause in various international forums, urging global attention toward the continuous oppression and injustice faced by Palestinians.

A month after Israel's barbaric attack on Gaza, Ebrahim Raisi spoke at a summit held in Riyadh. He began his speech, by saluting the Prophet (s) and reciting a verse from the Glorious Quran, and continued with a lump in his throat and tears in his eyes, stating:

*“Salaam to the noble Quds, salaam to Gaza and its children, salaam to Palestine and its unjustly spilled blood... Today, Palestine is the true test of Islamic and human dignity... We want to take a historic and decisive decision regarding what is happening in the Palestinian territories. Killing civilians and bombing hospitals are manifestations of Israeli crimes in Gaza. Today, everyone must decide which side they stand on.”*

## Standing up for the Voiceless

Together with Iran's late Foreign Minister Hossein Amir-Abdollahian, President Raisi has exposed the atrocities committed by the Israeli army. They have consistently brought to light the massacre of over 35,000 defenseless people in Gaza, including women and children, on international platforms.

The oppressed people of Palestine will never forget their longtime supporter on the exceptional night of Operation True Promise. On that night, as the missiles flew overhead, for the first time in Palestinian history, they struck the heart of the Zionist oppressor instead of the heart of a Palestinian child.

Yes, Ebrahim Raisi excelled not only in the political arena, but also in the realms of love and commitment. He was a passionate advocate for Palestine and a staunch defender of its oppressed people. His name will forever be enshrined in the history of Palestine's resistance.

## Defender of Faith at the UN

Behind the podium of the United Nations, where each president strives to defend their country's rights in a few minutes, Dr. Seyyed Ebrahim Raisi stood out by taking hold of the Quran and becoming its ardent defender. While major media outlets attempted to spread Islamophobia and insult the Quran, Raisi elevated the banner of Islam in his powerful and thunderous address. He recited Quranic verses with a loud voice in the General Assembly of the United Nations, advocating for respect for prophets and religions, and alerting world leaders to the hidden agenda behind the dissemination of hatred.

Amidst the storm of hostility, the melody of his Quran recitation resonated, echoing his unwavering stand for faith.

## A Tragic Farewell

He was tireless, journeying from one province to another, from the east of the country to the west, dedicated to serving the people. He believed in going directly to the people, listening to their problems, and finding solutions.

On May 19, 2024, he inaugurated a dam in the western part of the country, near the border, and then visited the people of that region. Despite the great distance and challenging weather, he was determined to reach the provincial center to inaugurate another project. Tragically, on their journey, the helicopter encountered severe weather conditions, leading to a crash that claimed the lives of Ebrahim Raisi, Iran's Foreign Minister Hossein Amir-Abdollahian, the Friday Imam of Tabriz, and other companions.

Though he has physically departed from us, his legacy remains forever etched in the hearts of the oppressed people of the world.

“Salaam to the noble  
Quds, salaam to  
Gaza and its  
children, salaam  
to Palestine and  
its unjustly  
spilled  
blood...  
Today,  
Palestine  
is the  
true test  
of Islamic  
and human  
dignity”
